■ Fixture Information

- Flat light source lighting fixture, which is mainly used in broadcast studio
- It is installed in front of a person and used for highlighting the person.
- Excellent light quality, and average CRI 95~98 / R9, R12 are CRI 90 or higher
- The LED source is not directly visible, no glare and extremely soft light distribution
- 2900~6000K color temperature control function
- Support RDM network communication and various mode setting possible
- Smart touch control method makes it easy and convenient to check all information at a glance
- Battery attach available.
- Long life, reduce maintenance costs and power consumption.

■ Fixture Information

| | |
|-------------------------|--|
| Power Input Voltage | AC 100 ~ 240V, 50/60Hz |
| Battery Voltage Range | 14.4V DC |
| Power Consumption (Max) | 120W |
| LED Chip | 0.5W |
| Beam Angle | 135° |
| Color Temperature | Full 2,900 - 6,000K (VCT) / (Option) Min 2800 - Max 6500K |
| Dimming | 0~100% 16-bit |
